Month

März 2021

## Largest Contentful Paint (LCP)

LCP reports the render time of the largest content element that is visible within the viewport.

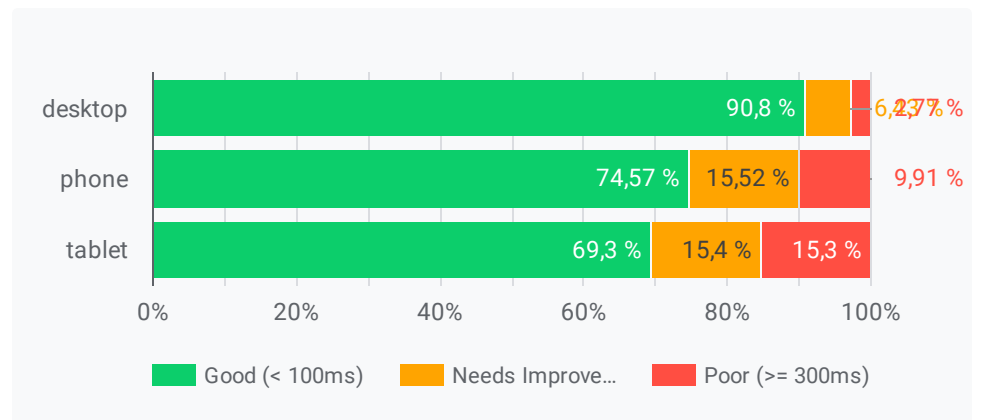

[web.dev/lcp](https://web.dev/lcp)

## First Input Delay (FID)

FID measures the time from when a user first interacts with a page (i.e. when they click a link, tap on a button, or use a custom, JavaScript-powered control) to the time when the browser is actually able to respond to that interaction.

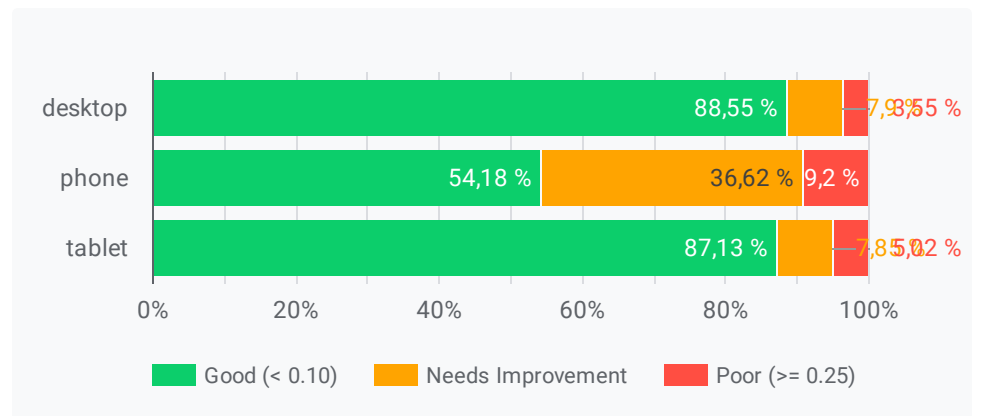

[web.dev/fid](https://web.dev/fid)

## Cumulative Layout Shift (CLS)

CLS measures the sum total of all individual layout shift scores for every unexpected layout shift that occurs during the entire lifespan of the page.

[web.dev/cls](https://web.dev/cls)

New datasets are released on the second Tuesday of each month.
